Reference

1. BUMEDINST 6230.15A dated 29 Sep 06, subject: Immunizations and Chemoprophylaxis.

FOR OFFICIAL USE ONLY

Seasonal Influenza Vaccine Distribution Process

Phase 1
Requirements
DEC-JAN

- DATA CALL – DEC
- Navy/Marine Corps activities submit requirements via VIALS
- DOD's Requirements are approved and forwarded to Defense Logistics Agency – Troop Support (DLA-TS) – JAN
- ***NOTE: All timelines are subject to change each year.***

Phase 2
Solicitations
JAN-APR

- DLA-TS issues solicitations to vendors – JAN
- DLA-TS closes solicitations – FEB
- DLA-TS receives offers – MAR
- DLA-TS completes evaluations of manufacturer(s) offers – APR

Phase 3
Contract
MAY-JUL

- DLA-TS awards contracts and distributes contract information to Service Representatives (Svc Reps) - MAY
- NMLC receives funding from the Bureau of Medicine and Surgery.
- Svc Rep updates VIALS with contract data
- VIALS generates MILSTRIP - JUL
- Svc Rep forwards MILSTRIP requisitions to DLA-TS and are put on backorder status until product becomes available.

Phase 4
Shipment
AUG-JAN

- Shipments begin AUG/SEP and continue through DEC/JAN
- VIALS matches and tracks shipments

FOR OFFICIAL USE ONLY

Distribution Process: Phase 1 (Dec-Jan)

- Department of the Navy (DoN) activities submit requirements into the Common Access Card (CAC)-enabled Vaccine Information and Logistics System (VIALS) tool. https://gov_only.nmlc.med.navy.mil/int_code03/vials/
- DoD totals are submitted to the Defense Health Agency (DHA), Immunization Healthcare Branch which in-turn get submitted to the Defense Logistics Agency (DLA).
- Each year the Food and Drug Administration (FDA) recommend the strains that manufacturers should include in the development of the Influenza Virus Vaccine for the U.S. population.
- Manufacturers begin making vaccine.

FOR OFFICIAL USE ONLY

Distribution Process: Phase 2/3 (Jan–Jul)

- DLA-TSM issues solicitations, vendors submit offers, then contracts are awarded.
- CNO/BUMED update and release policies and regulations.
- Manufacturers release Vaccine Package Inserts.
- Once the contracts are awarded, delivery schedules are finalized and DLA-TSM provides National Stock Numbers (NSN's), prices, etc. VIALS is updated with this information.
- VIALS generates MILSTRIP requisition numbers.
- VIALS "Order Summary" tab becomes available.
- Svc reps are notified when DLA-TS will accept requisitions. Requisitions are put on backorder status until product is available and the shipping process begins.
- If any orders are received by DLA-TSM, outside of VIALS, orders are not authorized and will be automatically cancelled.

FOR OFFICIAL USE ONLY

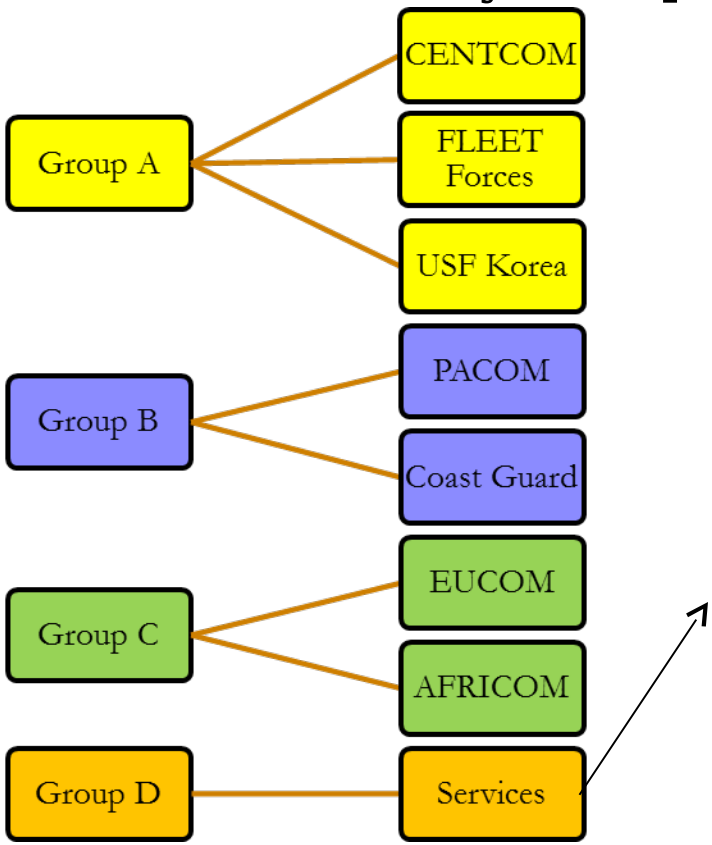
Distribution Process: Phase 4 (Aug-Feb)

- **Injectable Vaccine is shipped from the Defense Distribution Depot Susquehanna, Pennsylvania (DDSP) using UIC TAC 2 (cold chain shipping address).**
  - Contract Proposed Delivery Schedule: 70% by 28 Aug, 30% by 30 Sep
- **Intranasal Vaccine is shipped directly from the manufacturer to the Ship to UIC identified in VIALS.**
  - Contract Proposed Delivery Schedule: 50% by 31 Aug, 30% by 30 Sep and 20% by 31 Oct
- DDSP receives deliveries of vaccine into their warehouse from the manufacturers. Vaccine starts shipping for DoD's priorities (see next slide).
- Compliance target date of 90% by 16 Dec 15.
- Watch the VIALS Gov Only "Order Summary" tab.

FOR OFFICIAL USE ONLY

2013-2014 DoD Priority Groups

- DoD's vaccine distribution priorities are established by the Joint Preventive Medical Policy Group (JPMPG).
- 2015-2016 Priority Groups



Group D (Service Priority) (This group includes trainees and service academies, deploying Forces, National Guard/Reserves and medically at risk – chronically ill children and adults, especially those greater than 65 years of age).

FOR OFFICIAL USE ONLY

Influenza Virus Vaccine Strains

- The 2015-2016 Influenza Virus Vaccine strains are:
  - Trivalent strains:

    A/California/7/2009 (H1N1)-like virus

    A/Switzerland/9715293/2013 (H3N2)-like virus (change from last year)

    B/Phuket/3073/2013-like virus (B/Yamagata lineage) (change from last year)
  - For the Quadrivalent influenza vaccines the fourth strain selected is the B/Brisbane/60/2008-like virus (B/Victoria lineage)

- Visibility to any CAC-enabled customer

FOR OFFICIAL USE ONLY

Flumist (Intranasal) Shipments

- 5 Packages (PG) (50 doses) CONUS minimum.
- 20 PG (200 doses) OCONUS minimum.
- All orders were adjusted in VIALS by NMLC to reflect these minimums.
- All Flumist shipments will not be shipped with Dry Ice, MedImmune is going to be using frozen gel packs and thick Blue Plastic temperature monitors but the label will be yellow.
- Follow DLA-TSM's "Flumist Temperature Monitor" material handling instructions included with each Flumist shipment.

FOR OFFICIAL USE ONLY

Flumist Replacement Program

- This Flumist Replacement Program normally begins in the November timeframe. A VIALS help email will be sent out to all units that ordered Flumist
- Units may request replacement 15 days prior to the expiration date printed on the label.
- Replacements are in quantities of 10. Quantities will be rounded down if the request is not in a quantity of 10.
- Minimum request for replacement CONUS is 20 doses (2 PG) and OCONUS is 110 doses (11 PG).
- Replacement is at no cost.

FOR OFFICIAL USE ONLY

Cold Chain Certification

- When making the determination of whether your facility has cold chain capability, it is important to ensure that there will be someone physically there during normal business hours to accept delivery.
- **Key Factors:**
  - **Vaccines must be immediately removed from the shipping container and placed into a refrigerator running at 2 to 8 degrees Celsius (36 to 46 degrees Farenheit) upon receipt.**
  - **Follow DLA-TSM's materiel handling instructions and complete the worksheet that is provided in each shipment.**
  - **IMMEDIATELY RETURN the completed worksheet and the Temptale 4 (TT4's) in the FEDEX envelope provided to DLA-TSM.**

FOR OFFICIAL USE ONLY

Cold Chain Supplies

- Recommend that activities retain cold chain packaging supplies on-hand for transshipments, i.e., endurotherm boxes that the flu vaccine was shipped in and gel packs.
- When transshipping vaccine, DLA-TS will provide the recommended packaging protocols to use and a materiel handling instruction worksheet will be included.
- Contact DLA-TS's Cold Chain Manager, Ms. Dana Dallas at (215)737-5537 or Ms. Nancy Collins at (215)737-5365 for ALL cold chain concerns.
- Contact your DHA Information Healthcare Specialist (IHS) for ALL refer malfunctions (https://www.vaccines.mil/map).

FOR OFFICIAL USE ONLY

Temperature Exposures

- Product temperature exposures (i.e., receipt handling error, refrigerator malfunction, power outages, etc.) will be immediately reported using the DHA Potentially Compromised Worksheet.
- ALL shipments will include TT4's. Directions on use will be in each shipment.
- Activities must complete the materiel handling worksheet included in all shipments and return the materiel handling sheet and all TT4's to DLA-TSM using the FEDEX envelope provided. MAKE A COPY OF THE HANDLING WORKSHEET FOR YOUR RECORDS.

FOR OFFICIAL USE ONLY

MATMAN Responsibility

- Cold Chain
  - Immediately count the order upon receipt and notify VIALS Help usn.detrick.navmedlogcomftdmd.list.vialhelp@mail.mil . if there's an over-shipment, short ship, damage, etc.
  - Ensure that the DLA-TSM materiel handling worksheet is completely filled out, copied for your records for future reference, and returned immediately to DLA-TSM.
  - Ensure that the TT4's are returned immediately to DLA-TSM using supplied FEDEX envelope.
  - Retain endurotherm box and gel packs for possible future transshipment of product.
  - Keep DHA IHS's informed of all temperature excursions post receipt.
  - Keep DLA-TSM included with all transshipments of vaccine.
  - Know what is happening to your requisition(s) in VIALS at all times by opening up the CAC-enabled VIALS Gov Only link: https://gov_only.nmlc.med.navy.mil/int_code03/vials/ .
